INTRO

- Montenegro is constitutionally defined as ecological state (Article 1)
- The Moto of National Tourist Organization:
WILD BEAUTY

- Constitutional, legal and declarative - high standards

PROBLEMS IN PRACTICE

Case One: Trtor River

- Local companies discharging wastewater directly into the river
- They dug up and make a dum of the river

Case Two: Jashka river

- A local businessman set up a dam on the river to make a reservoir to irrigate its sports playgrounds
- The problem was reported to the inspection
- The dam was removed after 2 months

Case Three: Bistrica River

- The Prime Minister of Montenegro approved a concession for a small hydroelectric power plant to his son
- We initiated a procedure in front of the Anti-Corruption Agency
- Current status: The case is in front of the Administrative Court.

MODELS OF SOLUTIONS

- Institutional fight - reports of inspections and court proceedings
- cooperation with other green movements

- Animating people to preserve the river
- Established connections between man and segments of nature
 - Local community - rivers - forests
 - The initiative of 100,000 trees
